

# **DIY Felt Dudleya Succulents**

Make your own felt dudleya succulent! These plants are native to California and are a great drought-resistant choice for a garden. Make a felt version today!

1. Start with a square piece of felt. Cut a spiral, leaving a square in the middle.

2. Roll along the cut edge and secure the end with glue. Trim if wanted.

3. Add to pot, and decorate if you want to.

4. Forget to water your dudleya. Enjoy!
